**MR. LUIS MORENO-OCAMPO  
THE PROSECUTOR  
INTERNATIONAL CRIMINAL COURT**

Dear Sir,

### KENYAN GENOCIDE & MASS RAPE: WE HAVE THE DNA FORENSIC EVIDENCE

Mr. Ocampo, I address you today to write about the Kenyan Genocide and the Mass Rape Incident that was witnessed here.

**United Nations Resolution 1820 (2008)** notes that rape and other forms of sexual violence can constitute a war crime, a crime against humanity, or a constitutive act with respect to genocide....to ensure that all victims of sexual violence, particularly women and girls, have equal protection under the law and equal access to justice, and *stresses* the importance of ending impunity for such acts as part of a comprehensive approach to seeking sustainable peace, justice, truth, and national reconciliation;

**CSI Nairobi** (part of **DNA TESTING SERVICES**) together with the **Nairobi Women's Hospital** collected DNA samples from sexually assaulted women and children. These samples were shipped to the world's most respected private DNA Forensic facility in the U.S, **Bode Technology Group** for analysis and profiling.

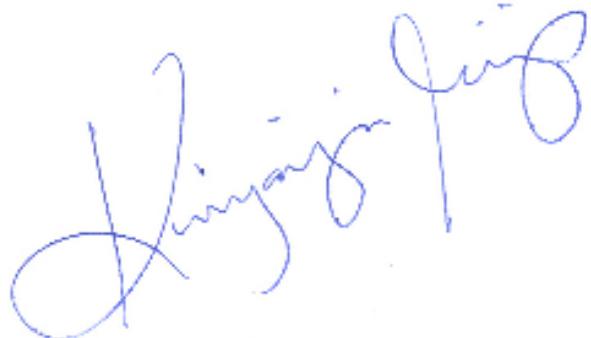

You will agree that this is the first time in human history that DNA Forensic evidence was ever collected in a Mass Rape Incident and this, at a period of active unrest.

We want you to guide us on what to do with this crucial evidence.

Whichever way your direction takes us, we are confident it will be a direction that will punish rapists responsible for Mass Rape and begin the healing process and closure for thousands affected by this inhuman crime.

We are ready.

Thank you very much.

A handwritten signature in blue ink, appearing to read "Kinyanji Murigi". The signature is fluid and cursive, with a large, stylized 'K' on the left and 'Murigi' written below it.
